Indoor Flag Set Assembly Instructions

Your Flag Set should arrive in two separate packages, which will include: (A) Flag Pole Finial (Eagle, for USA flags; Cross, for church flags); (B) Brass screw with philips head; (L) Brass screw with philips head; (J) Brass screw with slotted head; (C) Brass screw eye; (E) Flag Tassel (not included with all sets) (F) Flag with Sleeve; (H),(I) Two Flag Pole Sections (4' wood sections with brass fittings); (K) Optional Flag Pole Stand (plastic).

To Assemble Flag Set

Before starting assembly, you may wish to remove the flag from its box and press it with a warm iron to remove creases. You may also want to pour sand (available from your local building supply store) into your plastic or brass flag pole stand (K) to give it enough weight to remain stable when the flag set is installed. An opening for sand will be found on the underside of the stand.
